Requested By: Group 13	Contact: Group 13	Date: 2023-04-01

Requested By: Group 13	Contact: Group 13	Date: 2023-04-01
Description of Change: A professor or a course administrator should be able to create a new course. They should be able to customize the name of the course, and the content of the course.

Project Name: DimSpaces	Change Name: Make recently viewed list longer	Number: 3
Requested By: Group 13	Contact: Group 13	Date: 2023-04-01
Description of Change: Currently, a student can only see their 5 most recently viewed assignments.

Change Description		
Project Name: DimSpaces	Change Name: Show grade weights	Number: 5
Requested By: Group 13	Contact: Group 13	Date: 2023-04-01
Description of Change: In the grades panel, there should be an option for the weight that each assignment is towards the overall grade in the course. When the course is done, the overall grade in the course should be displayed.		
Reason for Change: This will mean that students will not have to open up the course syllabus every time they want to check grade weights. When the course is completed, this will mean that students do not have to calculate their final grade.		
Priority [Circle One]: 1. High 2. Medium 3. Low		
Impact on Deliverables: This should only affect this particular deliverable		
Impact of Not Responding to Change (and Reason Why): Students might lose sight of which assignments are worth more than others
